CARRARA HOTEL

The combination between porcelain and drawings inspired by the noble marble of *Carrara Hotel*, a very refined, geometric approach, creates the illusion that each piece of the set is interchangeable.

TILES

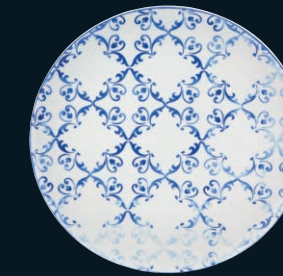

The word "azulejo" [tile] comes from the Arabic "azzelij", "a small polished stone", also commonly associated with the Persian term "lazkward", "lapis lazuli", due to the fact that a great part of the Portuguese tile production uses this colour. Tiles collection pays a tribute to this Arab heritage, which revealed to be one of the most original productions of Portuguese culture, with its own decorative, geometric, vegetal motifs, and many others features, surpassing simple utilitarian function and becoming art.

The manual gold filament on the edge of each piece provide *Gold Stone* collection an extra refine element. This decorative element enhances, by contrast, the irregularity of the shape and the organicity of the material. INFINITA by Carsten Gollnick

Infinita is a small collection of unusually shaped porcelain servers for sensitive and creative catering. Ideal for presenting premium, beautifully styled contemporary food concepts. Softly stretched surfaces, without visible edges, with no start or finish, characterise the formal statement the servers are making. The traditional division in porcelain tableware of edge and eating surface is completely done away with here. The charm of the objects stems from the contrast between the perfectly smooth and reflected surface, stretched over the inner core, and the exquisite dishes and sensitive foodstyling of an ambitious chef.

MARÉ ALTA by Magdalena Kraska

Maré Alta, developed by the Polish designer Magdalena Kraska, is inspired by Portuguese cuisine and coast line. The high tide phenomena when the water rises to its highest level, forming a wave effect, is represented in the shape of the plates. Moreover, the plating areas reveal elegant and functional fluid waves, that shine intensively.

MATRIX by Bartek Mejor

Specializing in contemporary porcelain, the Polish designer Bartek Mejor applied all his mastery in the *Matrix* collection for Vista Alegre, defying expectations in the design and manufacturing process. Using slates built from a series of irregular facets, with a crystalline structure as base, Mejor creatively combined technology and artisanal savoir faire.

O! MOON by Santos Bregaña

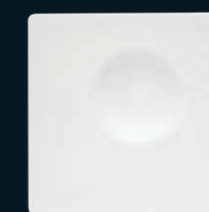

In this set of great Symbolism, spanish designer Santos Bregaña evokes the four elements - fire, earth, air and water - through four geometric strategies: solar, lunar eclipse and spiral. A conceptual work that plays on the composition, proportions, structures and limits in the handling of the material, providing light and thus amplifying the qualities of all revenues. Very distinct pieces, joined by an organic balance that will leave no-one indifferent.

SATURN by Carsten Gollnick

Saturn comes across as a sculptural space, taking hold of the traditional idea of a plate and transporting us into a new type of three-dimensionality. Thanks to rotational symmetry and to the area of the sides that rise up elegantly from the entire surface, gastronomic creations are able to rise up from the table so as to gain further prominence. A creation by the renowned German designer, Carsten Gollnick, who continually challenges Vista Alegre to go past all boundaries in the production of porcelain, Saturn is certain to stimulate the creativity of the most ambitious of chefs, always inspiring new culinary delights.

TECIDO

by Gonçalo Campos

The textile's delicate waves have inspired this dynamic piece. Evoking the textile's smoothness and lightness, *Tecido* has a novel shape. The waves of this piece were only possible to obtain by using the best quality porcelain.

TEXTURE by Mieke Cuppen

Just as its name suggests, this set of plates designed by the Dutch tableware specialist, Mieke Cuppen, places emphasis on texture. *Texture* allows playing with plating, thanks to a surface that influences how and where food is placed. The transition from a soft glazed texture to one that is unglazed, in addition to the interactions and contrasts arising with other pieces and materials stand to make this piece even more tempting.

THEATRE by FROM

In the ancient Greek's theater, the orchestra was a small circular stage surrounded by the audience. Inspired by this scenery the pieces of *Theatre* collection put the Chefs creations in the center of attention. The carefully crafted porcelain praises the art of cooking and makes each presentation seen as a true show. The *Theatre* collection was designed by FROM founded by Cesare Bizzotto, Manuel Amaral Netto and Tobias Nitsche from Italy, Portugal and Germany. After attending a master in product design at ECAL in Switzerland, the three designers got together to create a studio.

VERNISSAGE by Carsten Gollnick

With three exceptionally pure and sensuous plate-like objects, Vernissage is not about classical plates but outstanding porcelain presentation for creative and discerning gastronomy. Expectations of conventional plate shapes are completely thrown overboard. Combination of volume and unglazed porcelain flat surface as well as lightness and visual weight has created a decidedly unique object in gastronomy.

DOMO

Domo is a contemporary model, made of fine porcelain, inspired by the minimalistic trends of modern international design and architecture. Its elegant and sophisticated lines are a perfect symbol of haute cuisine. The subtle spherical and rounded shapes are combined with sharply creased details, creating a visual contrast. These elegant and refined plates, with soft curves and generous size, were specially created to meet the requirements of the art of presentation pursued by catering professionals, including the most demanding chefs.
